

## 450\*50\*2.6Mm TCT Cutting Saw Blade For Paper Tubes And Plastic

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Seton
- Certification: CE ISO
- Model Number: TCT
- Minimum Order Quantity: MOQ 10 Pieces
- Price: Can be discussed
- Packaging Details: 1pc/wrapper, 100pcs/box, 100boxes/ctn, Wooden and carbon boxes
- Delivery Time: 30 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500 Piece/Pieces per Day

### Product Specification

- Product Name: Cutting Saw Blade For Paper Tubes And Plastic
- Material: TCT
- OD: 450mm
- ID: 50mm
- Thickness: 2.6mm
- Precision:  $\pm 0.05\text{mm}$
- Hardness: HRC 58-66
- Application: Paper Cutting
- Highlight: tct cutting saw blade, tct round cutting blade, plastic cutting saw blade

## Product Description

### 450\*50\*2.6Mm TCT Cutting Saw Blade For Paper Tubes And Plastic

#### Description:

**Here are some other uses of paper cutting blades beyond just cutting:**

**1, Scoring and Scratching**

The sharp edges of some paper cutting blades can be used to create scoring or scratching effects on paper or other materials. This can be used for creative designs on greeting cards, posters, book covers, etc.

It can also be used to create frosted or textured effects on glass, plastic, and other surfaces.

**2, Engraving and Punching**

Specialized blade shapes like circle or serrated blades can be used to engrave patterns or punch holes into materials.

This can be applied to handicrafts like woodcarving, leatherwork, and more.

It can also be used to create interesting geometric or patterned perforations on paper, films, and other thin materials.

**3, Trimming and Cutting**

Beyond flat cutting, paper cutting blades can be used for other types of trimming and cutting tasks.

Such as cutting fabrics, leather, films, tapes, and other materials.

Or for precise cutting of circuit boards, thin metal sheets, and other industrial materials.

**4, Cleaning and Edging**

The sharp blade edges can be used to clean or trim the edges of various items.

Such as cleaning out crevices on electronic device surfaces, or trimming burrs on wood or plastic products.

This can be useful in fine craftsmanship or repair work.

#### Paper Cutting Blade Specifications:

Product name	Cutting Saw Blade For Paper Tubes And Plastic
Material	TCT
OD	450mm
ID	50mm
Thickness	2.6mm
Precision	±0.05mm
Hardness	HRC 58-66
Application	Paper cutting

**Here are some creative ways paper cutting blades can be used for scoring or scratching effects:**

**1, Textured Backgrounds**

Use a straight or serrated blade to create uniform scoring patterns on paper or cardstock.

This can add interesting visual textures as backgrounds for designs, collages, or mixed media artworks.

**2, Faux Engraving**

Carefully drag a blade edge across surfaces like wood, plastic, or metal to create the illusion of engraved lines and designs.

This can be used to mimic the look of engraved invitations, labels, or decorative elements.

**3, Etched Glass Effects**

Apply a straight or angled blade to the surface of glass to create frosted or matte patterns.

This can transform the look of glass jars, vases, or even windows for a unique DIY etched effect.

**4, Layered Cut-Outs**

Score lines on paper or thin materials, then carefully cut along them to create intricate layered cut-out designs.

This technique can produce 3D pop-up effects or allow you to peel back sections of an image or pattern.

**5, Distressed Edges**

Use a serrated or angled blade to gently scratch or tear the edges of paper, fabric, or thin leather.

This can add a vintage, weathered look to items like tags, invitations, and book covers.

**6, Perforated Patterns**

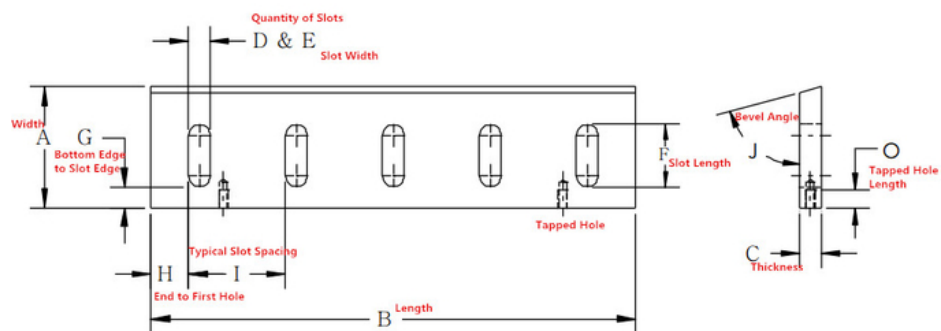

Punch repeating patterns of small holes using a sharp, pointed blade tip.

The resulting perforations can create delicate lace-like effects on paper, vellum, or translucent materials.
