

Factory Direct Sale HSS Knife Polar Paper Cutting Machine Blades

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Seton
- Certification: CE ISO
- Model Number: HSS
- Minimum Order Quantity: MOQ 10 Pieces
- Price: Can be discussed
- Packaging Details: 1pc/wrapper, 100pcs/box, 100boxes/ctn, Wooden and carbon boxes
- Delivery Time: 30 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500 Piece/Pieces per Day

Product Specification

- Product Name: Slitting Cardboard Blade For Paper Cutting
- Material: HSS
- OD: 135mm
- ID: 65mm
- Thickness: 15mm
- Precision: $\pm 0.05\text{mm}$
- Hardness: HRC 62-76
- Cutting Type: Paper Cutting
- Highlight: **Polar paper cutting machine blades,
HSS Polar paper cutting machine blades,
HSS Knife Factory Direct Sale**

Product Description

Product descriptions from the supplier

Overview

Product Description

The paper cutter is an ideal cutting tool for all kinds of papers, photos, art jams, cold and hot paper pasting, etc. Its blade has been specially treated, cutting is sharp and not easy to wear, and the cut products are neat. Every time the knife is sharpened, it must be fully cooled to avoid annealing of the knife edge. In order to make the knife edge sharper and smoother, the knife edge should be finely sharpened with oilstone before using the paper cutter. When cutting soap or paraffin should be often applied to the blade to prolong the durability of the cutter and make the cutting edge smooth. If it is found that there is paper pulling on the cutting edge of the cut, the cutting edge should be repaired with an oilstone or sharpened again at any time.

Specification

product name	Paper cutter blade
condition	New
Applicable industries	Paper processing plant
application	paper cutting machine
Marketing type	2023 new products
size	customized
hardness	HRC 58-62
material	High speed steel/tungsten steel

Product Information

ADVANTAGE:Small tolerance, accurate size, short cycle and material guarantee.

AREA OF APPLICATION:Papermaking, paper products processing, wire and cable, rubber aluminum foil, non-manufactured cloth, composite packaging materials, chemical fiber, telecommunications, electrical appliances, cigarettes, leather, printing, food and clothing and other industries.

The four selling points are trustworthy

01

Material Assurance

In order to ensure the product quality, the company has medium carbon steel, high carbon steel, alloy steel, tool steel, high speed steel and tungsten steel for customers to order, and the materials are tested by spectrometer.

02

Processing Assurance

Precision machining equipment, in addition to designing and developing special machinery to reduce costs, also uses all kinds of CNC machining machinery to ensure accuracy, mainly using the most precise grinder made in advanced countries in Germany and Japan to ensure the accuracy of tools.

03

Quality Assurance

Only by mastering the heat treatment by yourself can the tool play its best role and highlight the soul of the tool, and heat treatment is the professional field of our company, so as to ensure the stability of quality.

04

Inspection Assurance

The quality management of cutting tools is an important work invisible to the naked eye, so the company purchased advanced inspection equipment and set up a special inspection room to conduct product quality inspection at any time.

PRODUCTION PROCESS

Four Core Advantages

Sharp Blade

Uniform Force Distribution

High Efficiency

Long Usage Time
