Product Description

Circular Cutter Round Knife Cutting Blade Circular Cutting Knives Fabric Glass Paper Metal Fibre Cutter Cloth Cutting

Here are some other uses of paper cutting blades beyond just cutting:

1, Scoring and Scratching

The sharp edges of some paper cutting blades can be used to create scoring or scratching effects on paper or other materials. This can be used for creative designs on greeting cards, posters, book covers, etc.

It can also be used to create frosted or textured effects on glass, plastic, and other surfaces

2, Engraving and Punching

Specialized blade shapes like circle or serrated blades can be used to engrave patterns or punch holes into materials

This can be applied to handicrafts like woodcarving, leatherwork, and more

It can also be used to create interesting geometric or patterned perforations on paper, films, and other thin materials

3, Trimming and Cutting

Beyond flat cutting, paper cutting blades can be used for other types of trimming and cutting tasks

Such as cutting fabrics, leather, films, tapes, and other materials

Or for precise cutting of circuit boards, thin metal sheets, and other industrial materials

4, Cleaning and Edging

The sharp blade edges can be used to clean or trim the edges of various items

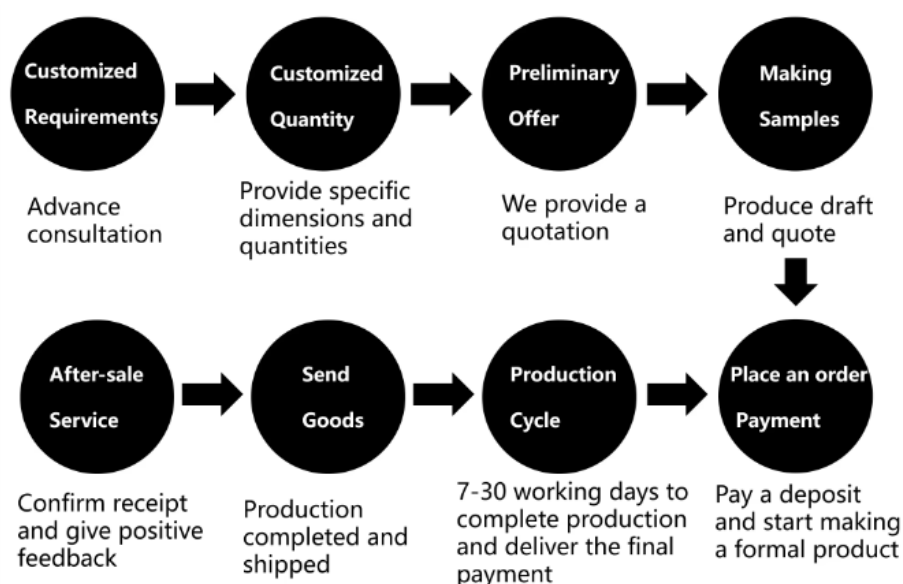

Such as cleaning out crevices on electronic device surfaces, or trimming burrs on wood or plastic products

This can be useful in fine craftsmanship or repair work
