Product Description

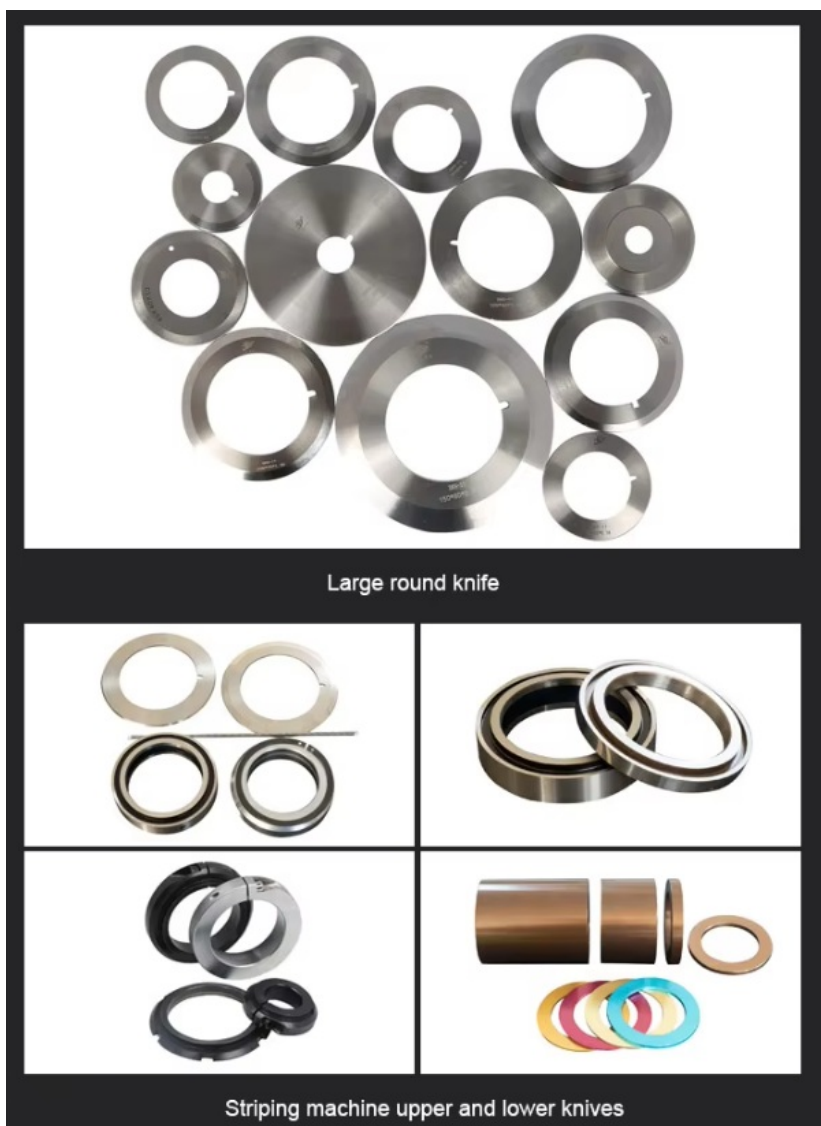

Industrial slitting machine parts rotary slitter knife

Description:

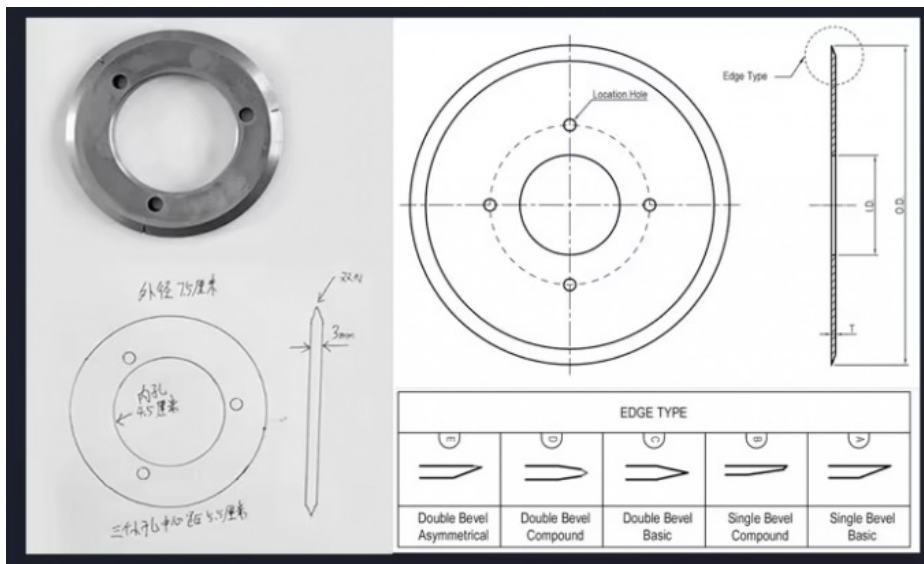

Industrial slitting machine parts rotary slitter knife

Slitting round blade is mainly used in slitting machine production line. With high wear resistance and dimensional precision, the cutting edge is strictly tested; Using German vacuum quenching technology, uniform heat treatment, blade hardness in HRC58-65, the use of CNC processing equipment to ensure accuracy, blade accuracy of 0.01-0.02MM. The surface is ground by ultra-precision grinding machine, and is strictly amplified to ensure that the blade tolerance is within 0.03mm. Used in all kinds of kraft paper, corrugated paper, rice paper, thermal paper, color spray paper, decorative base paper, printing base paper, copper foil, aluminum foil, electrode cutting processing. It has the advantages of neat and smooth incision, no burr, less blade replacement, long service life and high cost performance.
