

Processing and production of meat grinder blades, garlic puller blades, S-shaped semi-circular blades

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Seton
- Certification: CE ISO
- Model Number: High-Carbon Stainless Steel
- Minimum Order Quantity: MOQ 10 Pieces
- Price: Can be discussed
- Packaging Details: 1pc/wrapper, 100pcs/box, 100boxes/ctn, Wooden and carbon boxes
- Delivery Time: 30days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500 Piece/Pieces per Day

Product Specification

- Product Name: Stainless Steel Meat Band Knives Blade
- Material: Stainless Steel
- Hardness: HRC42-76
- Size: 1680*32*0.5mm
- Thickness Range: 0.2mm - 2mm
- Precision: ± 0.02 mm
- Transport Package: Paper Boxes, Carton
- Band Saw Blades Order Delivery Time: 15-25 Days
- Highlight: **Meat Grinder Blades,
S-shaped Semi-circular Blades,
Garlic Puller Blades**

Product Description

1650mm band saw blade bone cut blade for food processing

Product Description:

65" Band Saw Blade applications

Frozen meat and bones, ribs, trotters, poultry, frozen fish, aquatic products, steak, lamb chops, pure meat, pork meat, pork bones, ox bone and meat, bovine bone, bovine meat, camel meat, camel bones, bovine frozen meat, cow bones, sheep scorpions, pork ribs, sheep ribs, chicken, hard bones, cattle bones, sheep bones, fruits, vegetable and duck

Features:

- 1.The product adopts high carbon steel imported from Germany
- 2.Sharp teeth, precise tooth forming process
- 3.Tooth separation accuracy of plus or minus 0.02mm to ensure perfect cutting effect
- 4.Extreme tooth hardness

Applications:

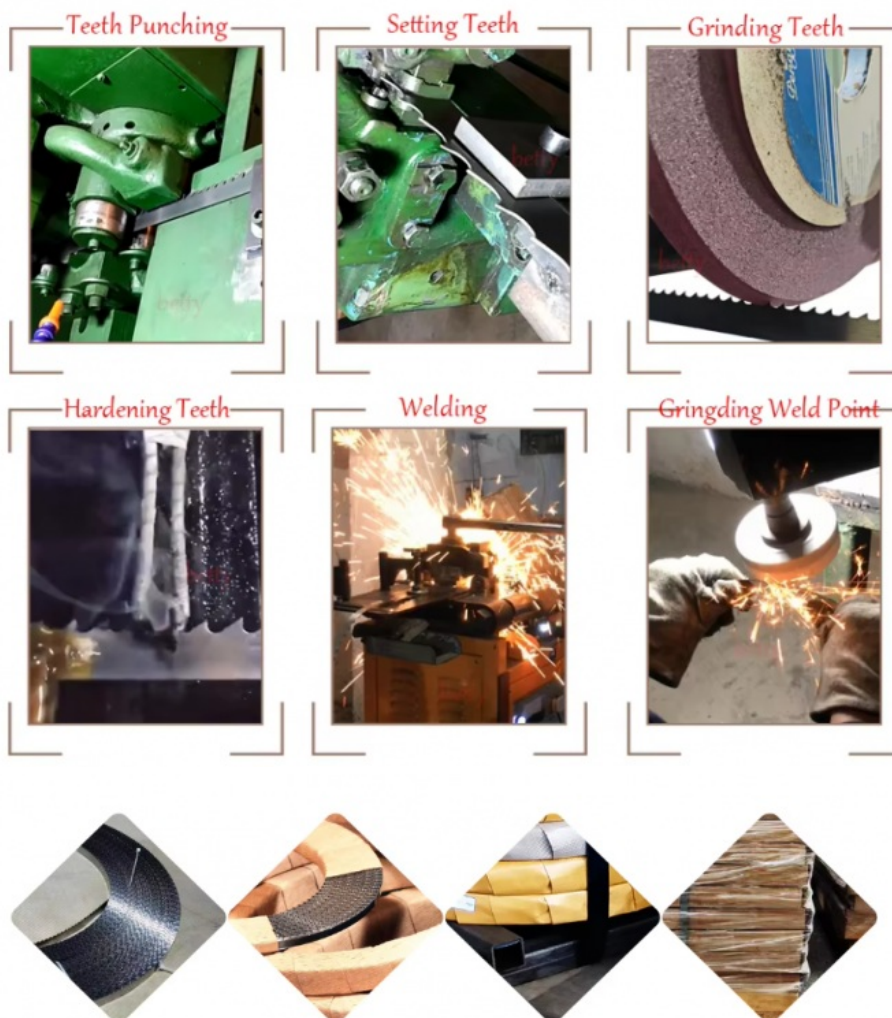

Meat suppliers / Restaurants / Food distribution enterprises / Meat freezer enterprises / Slaughterhouses / Supermarkets

Cgood Kinds of Band saw blades manufacture processing:

- 1.Raw material for machining tools meat band saw blade: Acquire STM,JIS,DIN,GOST,GB standard raw materials strictly according to the standard of raw materials of saw blade
- 2.fish carbon steel saw blade Teeth Punching: Please find the band saw blade tooth types above for your choose
- 3.Oak cutting metal saw blade Setting teeth
- 4.Band saw blades Grinding teeth: Teeth grinding procedure is to remove burrs left on the tooth, to make the tooth more sharper and perfectly even. Thereby to make the blade cutting faster and accurately, with lower cutting costs
- 5.Bread Band Knife Blades Hardening teeth: It is a procedure to allow a high carbon content that allows the teeth to be hardened after teeth punched and set. This make for a durable blade that can withstand the heat and abrasion from re-sawing. Tooth point hardness HRC 58-62
- 6.Food cutting tools saw blade Welding: We are selling both the welded saw blade and the without welded band saw blade coils. For which one, it's depends on whether you have a welding machine, do the weld service by yourself. And the price is different. Let us know your requirement, the best factory price will be offered.
- 7.Meat and bones cutting band saw blade Grinding weld point:
To grind the welding point, to trim the edge of the saw blade, as well as to demagnetize it, are to ensure the band saw blades with higher flatness and the toughness. They will not break easily in cutting. On the other hand, after this process, we attain extremely smooth surface. The saw blade is perfect as a wonderful work of art!

Packing & Delivery:

Welded Band Saw Blades

Each welded blade or 2-5 pcs meat bone band saw blades are packed with plastic film, and anti-rust paper in carton boxes.

10pcs in one roll, 10 rolls (100pcs)/carton

Common Carton Dimension (for meat bone band saw blades, the bread band saw blades, the Without Tooth saw band knife, soft wood band saw blades/small wood band saw blades, paper coils band saw blades, frozen hard bovine bones cutting band saw blades)

30 x 30 x 3cm

60 x 60 x 8cm

50 x 50 x 25cm Other carton sizes customized as your quantity.
